

MILKYWAY

Stigla nova oprema za proizvodnju tvrdog slavonskog sira: Osječko-baranjska županija nastavlja aktivnosti u okviru projekta MilkyWay

U sklopu projekta *MilkyWay*, Osječko-baranjska županija uspješno je provela još jednu važnu aktivnost usmjerenu jačanju proizvodnje autohtonih mliječnih proizvoda te podršci lokalnim proizvođačima. Nakon provedenog otvorenog postupka javne nabave male vrijednosti, 13. kolovoza 2025. godine u sjedište Udruge proizvođača tvrdog slavonskog sira Osječko-baranjske županije isporučena je nova oprema za proizvodnju tvrdog slavonskog sira.

Ukupna vrijednost isporučene opreme iznosi 104.601,15 eura, a bit će dana na korištenje Udruzi proizvođača tvrdog slavonskog sira Osječko-baranjske županije. Oprema je nabavljena s ciljem unaprjeđenja procesa proizvodnje, podizanja standarda kvalitete te jačanja prepoznatljivosti tvrdog slavonskog sira kao tradicionalnog i autohtonog proizvoda s područja županije.

Ova aktivnost jedna je od ključnih komponenti projekta *MilkyWay*, usmjerenog na modernizaciju proizvodnih kapaciteta, jačanje suradnje među proizvođačima te poticanje održive i konkurentne poljoprivredne proizvodnje. Provedbom projekta stvaraju se preduvjeti za povećanje količina i kvalitete proizvodnje, bolju promociju domaćih proizvoda te osnaživanje lokalnog gospodarstva.

Osječko-baranjska županija nastavlja provoditi aktivnosti koje doprinose razvoju mliječnog sektora, unaprjeđenju tradicionalnih proizvoda te stvaranju uvjeta za daljnji rast i tržišnu konkurentnost lokalnih proizvođača.

New Equipment Delivered for the Production of Hard Slavonian Cheese: Osijek-Baranja County Continues Activities within the MilkyWay Project

As part of the *MilkyWay* project, Osijek-Baranja County has successfully carried out another important activity aimed at strengthening the production of traditional dairy products and supporting local producers. Following an open public procurement procedure for low-value equipment, new equipment for the production of hard Slavonian cheese was delivered on 13 August 2025 to the headquarters of the Association of Hard Slavonian Cheese Producers of Osijek-Baranja County.

The total value of the delivered equipment is **EUR 104,601.15**, and it will be provided for use to the Association. The equipment was purchased with the aim of improving production processes, raising quality standards, and strengthening the recognition of hard Slavonian cheese as a traditional and authentic product of the region.

MILKYWAY

This activity is one of the key components of the *MilkyWay* project, focused on modernizing production capacities, enhancing cooperation among producers, and supporting sustainable and competitive agricultural production. Through the implementation of the project, the foundations are being laid for increased production volume and quality, improved promotion of local products, and the strengthening of the local economy.

Osijek-Baranja County continues to implement activities that contribute to the development of the dairy sector, the improvement of traditional products, and the creation of conditions for further growth and market competitiveness of local producers.
